Windows and Doors

Product Features:

Exterior

- Rugged .0625" T6 aluminum exterior
- All exterior surfaces are powder coated
- Concealed three-point locking system creates ultra security and peace of mind
- Standard color is white. Custom colors available upon request
- Drip rail moulding across the top directs water or moisture to run off without getting the front glass dirty
- Side casement drip rails prevent water from penetrating casement openings, and eliminates possible leakage or casement freeze-up during harsh winter conditions
- Upper and lower threaded rods through sides allow for unprecedented strength against sagging. Lower supports required on all projection windows
- Optional Glass
 - ▶ Tempered
 - ▶ Low-E
 - ▶ Beveled
 - ▶ Obscure
 - ▶ V-Groove
 - ▶ Light or dark tints
 (Ask your dealer for entire list of JT glass options)
- 13/16" insulated glass package standard on front panel and glass roof
- 5/8" insulated glass package standard on casement flankers
- Removable screens standard
- Easy glass replacement

Interior

- All interiors are made of solid Douglas Fir or select Northern Red Oak. Other species available upon request
- Our exclusively designed optional JT Snap-Out Grill gives your window the French window look of True Divided Lites (TDL), yet easily pops out for simple glass cleaning or to give your window and room a different look
- JT Snap-Out grill is available in custom divided break-ups
- All Clad Plus Garden Windows are available in standard even- and half-foot sizes
- Available with or without jamb
- Floor comes standard with birch or oak plywood;
- **17/8" Standard Clearance** for granite, tile, corian or any counter top possibility (Please Specify)
- Standard interior wood species subject to change upon market conditions

AUTHORIZED DEALER

www.jtwindows.com

JT Windows, Inc.

First in Quality Crafted Windows and Doors

JT Windows is proud to release our Clad Plus Garden Window. This window is the only window of its kind today. With a heavy .0625" T6 aluminum exterior and solid wood interior, this is the finest garden window on the market today.

From the coldest mountain top to the hottest desert, the powder coated exterior requires virtually no maintenance. At the same time, your home will remain a showcase for a lifetime to come. The concealed three-point locking system in each of our full opening casement flankers gives you the tightest, most secure garden window available, along with an incredible weather-tight seal.

JT Windows has been building garden windows for over 20 years. We have more experience in projection windows - bays, bows, and garden windows - than most companies working in the industry today. For a complete viewing of our entire product line, visit our on-line showroom at www.jtwindows.com.

Take a look at our revolutionary Aluminum Clad Garden Window. We're positive you'll agree it is truly **The Best Garden Window Ever Built.**

Superior Strength and Construction

Threaded metal rods keep window plumb and square while minimizing sagging

3 Points of Weather Proofing

1 Roof drip moulding directs water away from roof and off of glass

2 Casement drip moulding eliminates water from entering window

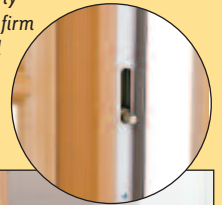

3 Bottom drip moulding adds beauty and attention to detail

Multi-Point Locking System

With our one-of-a-kind 3-point locking pins, entry is nearly impossible and a firm weather-tight seal is created

Weather-Tight Seals

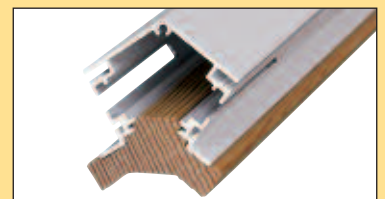

Durable weather stripping keeps weather conditions outside, where they belong

JT Snap-Out Grill (optional)

Gives your window the French window look of True Divided Lites (TDL), yet easily pops out for simple glass cleaning or to give your window and room a different look

Extruded T6 Aluminum Cladding

Maintenance-free .0625" extruded aluminum exterior with solid wood interior
